	4:30 STEAM (k6)		4:30 Yoga (k6)	

Don't see a time that fits, please let us know as we are always looking for suggestions!:))

Loose Parts: An open-ended class that encourages self-directed play using materials of various textures and characteristics. Loose parts activities offers lots of opportunities for fine motor skill development and freedom of expression.

Pre-K STEAM: Science, Technology, Engineering, Art and Math for preschoolers. Students explore concepts like gravity, structures, animals, colors and mixtures with engaging lessons and lots of opportunities for hands-on activities.

Preschool Cooking: Students learn about math, science, following directions, and healthy eating all while having fun making something delicious to eat!

Meet the Masters: Students will learn about the style and history of the Great Masters, such as Mondrian, Warhol, Monet, and others, and create their own masterpiece.

School Readiness: A class for preschoolers that teaches math and phonics. Using dynamic and hands-on activities, students will learn Math concepts such as one-to-one correspondence, geometry and spatial relations, measurement, and patterns. The Phonics program will help students discover and practice the connections between letters and their sounds. For ages 3-6y.

Storytime Art: Students will make an art project to make a connection with a beloved book.

Early Readers: For students who already know their letters and sounds and know how to put them together to form words. We will use the BOB Books curriculum as a foundation to read books. For ages 4&up

Preschool Yoga: Children derive enormous benefits from yoga. Physically, it enhances their flexibility, strength, coordination, and body awareness. Mentally, their concentration, sense of calmness and relaxation can all improve.

Parent-Child Mindfulness: Julie Pearl of Getting Mindful will teach mindfulness and practice techniques to children along with their parent to improve focus and emotional regulation. The workshop will be a journey learning awareness and the skill of attention to ourselves, our environment and to others.

Zumbini: Created by Zumba® and BabyFirst for kids ages 0-4, the Zumbini® program combines music, dance and educational tools for 45 minutes of can't-stop, won't-stop bonding, learning, and fun!

I Love Math: This class is for students who want to take math further by exploring numeracy concepts in real world situations. Students will learn to use logic, analysis, and reasoning to apply math concepts in engaging exercises. We will explore patterns, time, sequencing, the power of ten, and other fascinating math theories.

All About ABCs: A class to equip students with pre-reading skills through stories, activities, and exercises with lots of fine motor skill practice.. The focus will be on letter recognition and sound as well as words starting with the letter of the day. For ages 18m-6y
